Your comments and suggestions are helpful in improving this course.

(PAF 3401) Amazing

(PAF 3401) I thought this was a great class and that you taught it very well. My only suggestion would be to make the powerpoint slides available right before class, instead of after, just because it's hard to write the notes when you're going through them quickly in class. Other than that, thank you for a great semester!

(PAF 3401) Dr. Valente is one of the best professors I have had! She is very clear, patient, passionate and wants students to learn and do well in her class. I never thought this subject could be fun but I ended up loving it and learning a lot.

(PAF 3401) This Professor did an excellent job with this class. She explained difficult subject matter well and was always willing to work with students. She also made the class interesting and engaging.

(PAF 3401) I enjoyed the online class you gave. I feel that if you have time, maybe you could record more of your classes. The powerpoints help but seeing you do the problem made it easier to understand.

(PAF 3401) Very thorough and clear with subject. Would take Professor again if given the opportunity.

(PAF 3401) !

(PAF 3401) I have struggled with statistics in the past (I failed it twice). You are an excellent teacher that proved to me that statistics is not hard. Thank you for being a great teacher and showing me that I should not be afraid of math. I felt like the course was well thought out and everything was perfect. There are a few things that I did find helpful which was the online videos you did for our online class days. Also if you could make a video of how to do stuff on excel that would be amazing for future students. Thank you for a good semester!

(PAF 3401) I really enjoyed the class. Everything was very straightforward. Her slides, homework, and classwork were very easy to understand. When we had a question or any problem with the class she would provide us a clear and concise explanation. I definitely learned a lot more about Stats in this class compared to my Stats class in high school. Also, meeting up with her, was very helpful when I had trouble with anything in the class. I would definitely recommend other students to take her class!

(PAF 3401) The professor was great. She made it really easy to understand all the materials and was always very helpful.

(PAF 3401) Professor Valente enhances my knowledge about the subject. She even made me love this subject and think about keep taking another high level of quantitative methods. Or any other subject that Professor Valente teaches. Her teaching strategy is very organized and simple to understand. Also the problems are related to the materials. no surprises or uncover material. She always ask students to go see her if there is something unclear.I would love to take her again and recommend her to everyone.
