Comments to improve course

(PAF 3401) You're awesome

(PAF 3401) Professor Valente was an animated, and courteous professor! She always made sure all of her students understood the material and was never annoyed when a student needed extra time to understand a concept. She taught very clearly and made learning statistical methods and concepts so much easier and even enjoyable at some points. I highly recommend her as an instructor.

(PAF 3401) The best Professor ever !! I love how she's shows she cares for the students especially her feedback , she grades our assignments giving us enough time to ask questions that allows us to learn from our mistakes.

(PAF 3401) Class was well organized and easy to learn thanks to the professors method of teaching. - online classes were helpful, maybe every other week have online homework and every other week the regular ones

(PAF 3401) Professor Valente did an excellent job breaking down the material and providing plenty of in class examples which drove the lessons home. She fostored a pleasant learning environment and made material that otherwise would not be seem interesting.

(PAF 3401) This course challenged me but I enjoyed it.

(PAF 3401) I wish the quizzes weren't timed. The material matched the exam. The course was well structured. The Professor was understanding and receptive to feedback.

(PAF 3401) Thank you for being such a great professor- not only with learning but with being understanding with students! Your class was not only organized and well-prepared but felt like an easy approach to a challenging subject. I enjoyed how willing you were to work with students and how easy you were to communicate with. My only ask would be to make the review sheets/questions longer (for more practice) and more similar to the questions on the exam (in terms of difficulty and length). Thank you for a great fall term :-)

(PAF 3401) Dr. Valente is easily one of the best professors at Baruch. She is always there for her students and genuinely cares that her students leave with an understanding of the course materials.

(PAF 3401) Great professor! Great class! The only thing I would have liked is that with Baruch being a commuter school, I wish you would've helped facilitate forming study groups. Otherwise, thank you!

(PAF 3401) This professor is amazing. Very helpful, very patient, and just an overall great teacher. I went in scared because I am not the best at quantitative like courses or statistic like courses and the material was broken down in a way that was extremely effective in making me understand.

(PAF 3401) You're the best! Thank you so much. The only thing I would've liked to see more of which was very helpful were the videos!
